A. Belief Summary of PPI Project

The ongoing PPI supported project entitled**"Promotion of Better Livelihood of Hilly Women through Better Agricultural Practice"** is being implemented by SATHI in Pachhad block Sirmour district of Himachal Pradesh. Total duration of project is 3 years (March 2024- Feb 2027). During 2018-2024, SATHI with support of PPI also implemented bio-sand filter programme in afore mentioned target area. Key objective of PPI supported bio sand filter programme was to address drinking water woes of target community. In addition to providing safe water, SATHI simultaneously aims at enhancing farm based livelihood and supplement income of target community. As agriculture is the key source of livelihood for rural community, thus promoting better agricultural practices seems a very viable and sustainable solution to address livelihood related issues of rural women. Therefore, SATHI initiated PPI supported project on better agriculture in Pachhad block of Sirmour (HP).

Under the ongoing PPI project, SATHI has planned to improve living conditions of marginalized women (Krishi Shakhi) through better agricultural practices using crop intensification and organic farming techniques. SATHI proposed to undertake improved vegetable cultivation interventions on - **Tomato, Green Chilli, Capsicum , Coriander (Green Leaves) , Garlic , Cauliflower & Fenugreek** in 15 villages covering 200 households in Pachhad & Nahan block of Sirmour district of Himachal Pradesh (India). Generally, each farmer possesses approx. 3 to 8 Bigha cultivated land. Under proposed PPI project, each beneficiary will undertake vegetable cultivation in 1-2 Bigha cultivated land. Thus approx. 150 Bigha land will be covered under field demonstration during 3 years duration. **Besides vegetable field demonstration (Kharif & Rabi); SHG formation, community sensitization, capacity building trainings, supply of critical inputs, field exposure visits, scientific crop management, organic farming, marketing linkages support etc are key activities planned under ongoing PPI project.**

B. Details of activities implemented during Mar –Aug'24 of 1st Year of PPI project

From March-24, SATHI started grass root implementation of PPI project. Brief detail of activities undertaken by SATHI dunning Mar-Aug'24 of 1st year is as follows:-

1. Village selection

As mentioned earlier, ongoing PPI project will be implemented by SATHI in 15 target villages of Pachhad and Nahan block of Sirmour, HP. For 1st year of project implementation, SATHI with support of local PRI has selected 5 villages i.e. :-**Rajalag-Gadern, Kuina- Katli, Runja , Satora and Amta** of Ghinni-Ghad region of Pachhad block. Detail is as follows:-

Table: List of 1st year (Mar'24 –Feb'25) PPI project villages

Sr.	Village	Panchayat	Block	District	State
1	Rajalag-Gadern	Katli	Pachhad	Sirmour	HP
2	KuinaKatli	Surla Janot	Pachhad	Sirmour	HP
3	Runja	Jamun ki Ser	Pachhad	Sirmour	HP
4	Satora	Katli	Pachhad	Sirmour	HP
5	Amta	Katli	Pachhad	Sirmour	HP

2. Awareness creation at village level on best Agriculture Practices (Kharif Season)

After village selection, SATHI initiated village level awareness creation meetings in PPI target villages of 1st Year. Key objective of the same was to inform community about activities of PPI programme and final selection of Krishi Shakhi (women farmers) for training & filed demonstration activities. During meeting, Krishi Shakhi (women farmers) was also sensitized on adoption of seasonal vegetable as an additional source of income generation. A detail of village level awareness camps is as follows:-

Tab: Details of village level awareness creation meetings under 1st year of PPI project

Particular	Venue/Village	Date	Panchayat	Block	No. of Participants
Awareness camp	Rajalag-Gadern	04-03-24	Katli	Pachhad	26
	KuinaKatli	07-03-24	Surla Janot	Pachhad	17
	Runja	12-03-24	Jamun Ki Ser	Pachhad	10
	Satora	18-03-24	Katli	Pachhad	14
	Amta	26-03-24	Katli	Pachhad	13

3. Development of training manual & IEC material

Under PPI Project, SATHI also developed educational material such as banners & booklets/Pamphlets. During village level meetings & training camps, developed IEC material was distributed among beneficiaries. Key objective of the same was to educate people about importance of improved agricultural practices (especially on Kharif & Rabi season vegetable) and to encourage Krishi Shakhi (women farmers) for cultivation of the same.

4. Training Camp on Better Agriculture Practices (Kharif Season) 2024-25:

During month of April'24, SATHI organized 02 training camps for Krishi Shakhi (women farmers) (duration 02 days each) for Kharif Season vegetable cultivation. This training was imparted by SATHI at its Thakurdwara campus. Key objective of the same was to educate & practically train Krishi Shakhi (women farmers) on various aspects of kharif season vegetable cultivation for better livelihood & income generation. During camp, SATHI agricultural experts through audio visual aids & practical demonstration trained the Krishi Shakhi (women farmers) on :- **Importance of vegetable cultivation, soil testing, selection of high potential and disease resistant varieties, seed treatment, Farm/plot selection, spacing techniques, scientific crop management practices, organic farming through vermi- composting, post-harvest, processing (for Value addition) and marketing of vegetable produces.** Main objective of this Awareness cum Training programme was to provide theoretical and practical know-how to community so that all activities of proposed project should be executed effectively.

Tab: Details of village Farmers training camps under 1st year of PPI project

Particular	Name of SHGs Attended Training	Venue/Village	Date	No.of Krishi Shakhi
1.Training camp	Rajalag-Gadern, Runja and Satora	SATHI Campus Thakurdwara	18-19 April 24	31
2. Training camp	Kuina-Katli, Amta and Katli	SATHI Campus Thakurdwara	25-26 April 24	30

5. Agricultural Seed Distribution (Kharif Season) 2024-25

After capacity building training, SATHI with consultation of KVK (Krishi Vigyan Kendra) Dhaula-Kuan distributed improved varieties of selected vegetable seeds to PPI beneficiaries. During seed distribution SATHI used the criteria i.e. Availability and type of land available for Kharif season vegetable demonstrations, irrigation facilities, farmer's potential, experience & interest etc. For Kharif season (2024-25) vegetable demonstration, SATHI distributed improved varieties of **Green Chili, Coriander, Tomato & Cucumber** seed to beneficiaries. Total 61 Krishi Shakhi (women farmers) from 06 villages covered under the same. Details are as follows:-

Tab: Details of Kharif season (24-25) seed distribution under 1st year of PPI project

Sr	Krishi Shakhi Name	Village	Variety of Seed & Quantity			
			Green Chili(Kaali)	Coriander (American Nagina)	Tomato (Indam-13405)	Cucumber (RK 180)

6. Plot Selection

To undertake Kharif season (24-25) vegetable demonstration, PPI Krishi Shakhi (women farmers) with support of SATHI team and KVK experts selected suitable plots. Key factors taken into consideration were- type of soil and fertility, plot exposure to sun, availability of irrigation facility for selected plot etc.

7. Nursery Raising

Krishi Shakhi raised nursery of **Green Chilli and Tomato** seeds. Both, **Tomato and Green Chilli** are shown on nursery beds to raise seedlings for transplanting in the field. Raised beds of size 3 x 0.6 m and 10-15 cm in height were prepared. About 70 cm distances were kept between two beds to carry out operations of watering, weeding, etc.

8. Field Demonstration using SCI techniques (Kharif Season) 2024-25

After supply of critical inputs, SATHI carries out Kharif Season vegetable field demonstration with 61 Krishi Shakhi in 06 villages. Total 101.5 Bigha land covered under kharif season demonstration of Chilly, Coriander, Tomato and Cucumber by 61 women farmers. A detail is as follows:-

Tab: Details of seed variety & demonstration area under 1st year of PPI project

Sr.	Name of Krishi Shakhi	Village	Name of Demonstration				Total Area Covered

9. Inter-Culture Operation, pest management & promotion of organic ways of farming

After seed sowing; regular Inter-culture operations, weeding, mulching and watering has done by Krishi Shakhi so that they can get better yield. In case of disease/pest management issues, respective Krishi Shakhi is taking technical advice from Kisan Call Centers and KVK Dhaula-Kuan scientist. Under PPI project, SATHI promoted the safe ways of farming by encouraging use of cow dung manure and Vermi composting. The key objective of the same is to maintain soil fertility, environment protection and in turn getting better yield.

10. Supervision of Demonstration Plots

SATHI always encourages local community to actively participate in PPI project activities. During implementation of PPI project activities (especially during plot selection, seed sowing, field demonstration, disease & pest management, crop harvesting etc), SATHI team with Krishi Shakhi and local SHGs regularly monitored the demonstration plots. SATHI field staff also provides necessary help, guidance and support to project beneficiaries whenever & wherever desired by them. Thus, as a result of active participation of local community in all project activities, SATHI also hopes to sustain the project very efficiently & effectively.

11. Yield and Income from Demonstrations

The yield from kharif season vegetable demonstration is still awaited. The harvesting, marketing and sale of farm produces is expected till mid of Sept 2024. There after SATHI will collect data about the production, self-consumption, sale and income earned by Krishi Shakhi under PPI project.

12. Marketing support

After crop harvesting of vegetable produces, SATHI will assist Krishi Shakhi in marketing of farm produces. This will be achieved by collective sale at local (door to door collection by local agents) or nearby market such as Sarahan, Nahan and Pinjore town of Pachhad block of Sirmour district .

C. Concluding Remarks

Under the ongoing PPI project, SATHI has planned to improve living conditions of marginalized women through better agricultural practices in 15 remote villages of Pachhad & Nahan blocks of Sirmour (HP). Total duration of project is 03 years (March 2024- Feb 2027).

From Feb'24, SATHI started grass root implementation of PPI project activities. During 1st year (Feb'24-Jan'25) of project, till date SATHI implemented: community awareness, beneficiaries selection, farmers trainings, supply of critical inputs, vegetable field demonstration (Kharif season) ,field supervision and inter-culture operation activities. During Kharif season (24-25), total 61 women farmers of 05 villages were covered under field demonstrationof **Chilly, Chilly. Tomato and Coriander** covering about 101.5 Bigha agricultural lands. SATHI team with support of local SHG is regularly monitoring the demonstration plot. Till mid of Sept'24, crop harvesting and marketing activities for Kharif season (24-25) will be completed. There after Rabi season (24-25) activities will be carried out at PPI target villages.
